

ASC and Course Registration, a Step by Step Guide for freshmen

Institute Student Companion Programme, IITB

July 2021

Note: ASC registration is a one-time process at the beginning of your journey at IITB. After this, course registration is what is important which is required to be done before every semester.

1. Go to asc.iitb.ac.in. Follow the sequence in the image below.

The screenshot shows the IITB ASC portal. At the top right, the 'LDAP User ID' and 'Password' fields are circled in red, with a red arrow pointing to the 'Login' button, labeled '1. Login'. On the left sidebar, the 'Academic' menu is expanded, and the '+' icon next to it is circled in red, with a red arrow pointing to it, labeled '2. click on '+' on the left of academics'. Below this, the 'Registration' option is circled in red, with a red arrow pointing to it, labeled '3. click on '+' on the left of registration'. The main content area displays various notices and links, including 'ERP Login to view salary slip & Apply/Approve leave'.

2. You'll see the page as below. Read course pre-requisites before going for course Registration/Adjustment

The screenshot shows the IITB ASC portal after login. The left sidebar shows the 'Registration' menu expanded, with 'Registration/Adjustment' circled in red and labeled '2'. Below it, 'Course Prerequisites' is circled in red and labeled '1'. The main content area displays a notice: 'Notice: Information published at this website is owned by IIT Bombay. Any data/information downloaded from this site cannot be republished without written permission from Director, IIT Bombay'.

3.You will be directed to a page that asks you to update your personal information before you can register for courses. Update your personal information to the best of your knowledge, and then submit it. Remember, you can only update this information once, so please be careful while updating it.

4.Once you have submitted the personal information, you should receive an email from noreply@iitb.ac.in with the subject: Personal Information Update. The mail will also contain a pdf of your details as you have updated. Please download this information and keep for your own reference. In case you see a message saying that the mess advance is not found paid, please contact your mess manager.

COURSE PREREQUISITES:
 . Certain courses have been declared by various departments as courses having prerequisites. Prerequisites are available on the ASC page at ASC> Academic > Course Prerequisites
 . Students who have not cleared the required prerequisite course, shall not be allowed to register for the specific course.
 . Permission to bypass course prerequisite is purely on the discretion of the course-instructor. For such cases, students have to obtain the approval of the course-instructor on paper, and apply through the manual route to the academic office by submitting the permission letter obtained from the course-instructor at the academic office.

***Note-1: To avail the SMS facility, students must register their mobile number at the online mobile registry available on main ASC page.**
ASC> Online mobile registry>
***You have accepted IP Policy**

Select your qualifying academic background for the purpose of "Pre-requisites" :
 Please note that this data is not editable for M.Tech Students who applied to IITB through online admissions.
For remaining students - Please note that you can edit this information **ONLY ONCE** at this stage.
 CY - Chemistry

Declaration
 I have read the registration rules
 I have read the statement of ragging and promise to abide by the rules in the same
 I declare that I will adhere to all principles of academic honesty and integrity throughout my stay in the Institute. I will not seek or give unauthorized assistance in tests, quizzes, examinations or assignments. I will not misrepresent, fabricate or falsify any idea/data/fact/source in my project submissions. I understand that any violation of the above will be cause for disciplinary action as per the rules and regulations of the Institute.

☒ YES ☐ NO
SUBMIT

5.Now it is ready for **course registration** (done before every semester). But before that it is suggested to go through the running courses and description of the course which you are willing to choose. For the same follow the path on ASC page as: Academic > All About Courses > Running Courses. Then select the year & semester, click Go. The Same can be seen in below figure:

Running Course Information

Year [2019-2020] , Semester [2 : Spring] [GO]
 (eg: academic year 2006 and semester 2 corresponds to spring semester 2007)

Running courses for year 2019-2020 and semester 2

Course Prefix	NAME	Number of distinct courses
AE	Aerospace Engineering	40
BS,BT,BM,BB	Biosciences & Bioengineering	33
CE	Civil Engineering	51
CH	Chemistry	34
CL	Chemical Engineering	32
CM	Climate Studies	2
CS	Computer Science and Engineering	39
EE	Electrical Engineering	65
EN	Energy Science and Engineering	26

Verify

9. In case if the courses are not loading while entering the course codes, you need to use IITB VPN to register.

Refer 'VPN and Internet access' document for detailed instructions.

10. Core courses have been approved by the department and are compulsory for all students to take. These need to be selected by clicking on Register in the menu. Courses in this section will be associated with the tag Core (C) [These courses cannot be retagged.]

11. The Non-Credit course for PG students will consist mainly of the Communication Skills Course. Please note that whenever you take the communication skills course, you will necessarily have to take both HS 791 and MM 792 in this segment. Courses in this section will be associated with the Non-credit (N).

12.The list of approved departmental electives will be available on the website of each academic unit, and can be accessed. Please check the number of departmental electives that you need to do and plan your coursework accordingly. Courses in this section will be associated with the tag Departmental Elective (D).

13.As per the curriculum, you will be supposed to choose a course from outside department, which is named as Institute Elective (I). Generally, you will have to choose one from a list provided but you are free to choose any course out of your department as institute elective provided it is approved by the faculty advisor.

14.The last segment is the one where you must be most careful, since these courses do not come with a pre-approved tag (C or D). These courses will have a tag based on what you select from the drop-down menu shown. Please be careful here, since Core courses cannot be retagged.

15.In case you are unsure about the courses to take, talk to your Faculty Advisor, Department Coordinator, Student Companion or AURAA for clarification. Make sure you finish the required coursework as per what has been prescribed in your department.

16. In case you have registered for half semester courses, please note that you must necessarily register for both half semester courses at once.

17. In each of the cases, you need to type the course code, which you have decided after visting the running courses and grading statistics. Finally, click on the verify button and confirm the same in the next page. Then You will get an email with a list of courses that you have registered for on your webmail, along with the number of credits, whether or not it is a Core/Departmental/Institute Elective/Additional Learning Course.

18. With this the course registration is completed. And you can change the courses that you have taken during the period of Course Adjustment. To know the time period for course adjustment see the Academic calendar here:

https://www.iitb.ac.in/newacadhome/Academic_Calendar_2021_22.pdf

19. Still you can withdraw any course post mid-sem exam before the due date with concern from the faculty advisor, but it leads to a letter grade ‘W’ in your gradesheet, stands for course withdrawn.

20. Based on the courses that you have taken; a timetable will be generated for you. You can access the same with the path: Academic > Time Table > My Timetable.

Please make sure that you do not have courses clashing in the process (the system should not allow you to register for courses if the slots for the courses are clashing, but a second check never goes amiss!)

AUDIT COURSE:

It is also possible to choose the courses in an Audit mode. This tag is meant for an additional course which you are doing with your own interest and cannot be counted for grade evaluation and minimum credits requirement but can be added to your transcripts.

The student registered for a course as audit shall be awarded the grade AU if they fulfill the requirement of minimum of 80% attendance and duly satisfactory in-semester performance as prescribed by the Instructor. The Instructor shall include such AU grades in the final grade report for that course. If the student does not qualify for the grade AU, it will be assumed that the course has been dropped by that student and will not be seen in the transcript.

-------	----------	---------------------------	-------------	------------------	--------------	---------	-------------	----------------

Also, there is a restriction that two Audit courses per semester are allowed. The option of permitting student to register a course as “Audit” is left to the course instructor.

SIT THROUGH COURSE:

You don’t need to formally register (whether for credit or for audit) for such courses. By just talking to the course instructor, you can attend his classes, but you will have no exams and the course won’t be appearing in the transcript.

ADDITIONAL LEARNING COURSE:

The students have an option of taking the course as “additional learning”. These courses can be registered at the time of semester registration of courses. Registration for additional courses will require approval of the faculty advisor. “Additional Learning” tagged courses will be in addition to the minimum course credit requirement and will not affect the SPI/CPI, but the actual grades obtained will be shown in the transcript.

There will be one-time option of changing the tag of a course. The “Additional Learning” tagged courses can be retagged as “Department/Institute Elective” and visaversa. “Core courses” cannot be retagged as “Additional Learning” or “Department/Institute Elective”
